

Replace claims 1, 22 and 28 with rewritten claim 1, 22 and 28 as follows:\*

1. (Twice Amended) An isolated nucleic acid molecule comprising a part of a nucleic acid sequence, wherein the nucleic acid sequence is selected from the group consisting of:

- C<sup>1</sup>
- (a) a nucleic acid sequence encoding a protein comprising the amino acid sequence of SEQ ID NO: 2;
  - (b) a nucleic acid sequence that is SEQ ID NO: 1;
  - (c) a nucleic acid sequence hybridizing to the nucleic acid sequence of (a) or (b); and
  - (d) a nucleic acid sequence that has more than 90% sequence identity to (a) or (b);

wherein the part is sufficient to reduce the expression of a debranching enzyme in a plant cell when introduced in antisense orientation.

C<sup>2</sup>

22. (Amended) The host cell according to claim 16, wherein said nucleic acid sequence of (d) has a sequence identity of more than 95%.

---

\* Applicants enclose a version of claims 1, 22 and 28 marked up pursuant to 37 C.F.R. § 1.121(c)(1)(ii) to show changes made.
